SAFETY TIPS		VULCO GHANA
<p>• TIRE CHOICE</p> <p>Find a pattern as per your driving conditions</p> <ul style="list-style-type: none"> • Do not fit different sizes on the same axis. • Only mount size, which have been specified by the manufacturer. 	<p>• WHEEL BALANCING</p> <p>Consequences of unbalancing:</p> <ul style="list-style-type: none"> • Damage to tires. • Irregular wear. • Loss of traction and stability. • Lack of comfort. 	<p>Vulco is the premium network sponsored by Goodyear, the leading tire manufacturer in the world and one of the first retail networks specialized on tires and quick fit services in the market. Originally, Vulco was born in 1996 in France and rapidly grew in other European markets. Nowadays, Vulco is present in Europe and Africa with leading networks in more than 10 countries (France, Belgium, Spain, Portugal, Slovenia, Croatia, Serbia, Ghana, Burkina Faso, Mali, Senegal and Morocco).</p> <p>First Vulco outlet opened in West Africa in 2009 and, currently Vulco is expanding its operations with a clear objective to be preferred premium retail network for end consumers in all West African countries.</p> <p>Our commitment is to deliver high quality products and services through high skilled professionals in our point of sale. When entering one of our points of sale you and your car will be treated according to the highest standards in the market. Here under one roof you can have your vehicles inspected and reated by our expertise.</p>
<p>• TIRE ROTATION</p> <p>To maximize the tire performance, you should:</p> <ul style="list-style-type: none"> • Make axis rotation, every 10,000 kilometers 	<p>• WEAR INDICATORS</p> <p>Driving with tires whose tread is below the manufacturer wear indicators is dangerous (below 1.6mm). This causes:</p> <ul style="list-style-type: none"> • Instability • Skids & loss of control • Higher braking distances. 	
<p>• INFLATION PRESSURE</p> <ul style="list-style-type: none"> • Control your tire pressure every 15 days. • Use manufacturer's recommended pressure. • Check the status of valves. • Place caps on the valves. 	<p>• MOUNT NEW TIRES</p> <ul style="list-style-type: none"> • Always fit your car with new tires. • Say NO to used and low quality tires. 	
<p>• DRIVING RECOMMENDATION</p> <p>The elements that impact negatively on the life of tires are:</p> <ul style="list-style-type: none"> • Driving at high speed. • Taking turns too fast. • Quick stops. 		

We appreciate your presence
